

justice, hope & safety

We work to empower the community.

PAIR is committed to engagement and outreach to immigrant communities across Massachusetts. We partner with local nonprofits, places of worship, public and charter schools, neighborhood centers, colleges, healthcare providers, law firms and more. Our goal is to bring “Know Your Rights” presentations to communities in need. Since November 2016, PAIR has conducted hundreds of legal education presentations, serving tens of thousands of community members across the state. These presentations empower immigrants of varying circumstances to understand and use their constitutional rights.

The “Know Your Rights” presentations provide an overview of the current immigration landscape, legal updates, what a person’s rights are if he or she encounters immigration enforcement, an overview of the court process, and referrals to legal services providers across Massachusetts. These presentations are targeted to the specific audience and are available in multiple languages (including Spanish, Portuguese, and Haitian Creole).

Due to the COVID-19 pandemic, PAIR is offering Know Your Rights presentations virtually via Zoom.

To request a Know Your Rights presentation at your organization or to volunteer with a Know Your Rights presentation, please contact Julia Ciachurski, jciachurski@pairproject.org.

All of our materials and presentations are free. To request materials including the presentation slides, Know Your Rights cards, and a geographic referral list, please contact Julia Ciachurski at jciachurski@pairproject.org.
